RULES AND SPECIFICATIONS FOR FLOAT ENTRIES

1. All floats must be fully skirted on at least 3 sides to be judged as a float. Eligible float entries must be constructed to withstand travel and weather conditions.

2. Floats must not be over 12 feet wide for clearance on sides and not over 15 feet high (measured from the ground) for clearance of overhead obstructions. Length is left up to the discretion of the float builder but should not be too long to negotiate all turns.

3. Each float must be numbered according to the order designated by the Student Government Parade Committee. Each float must clearly display the organization’s name and the current homecoming theme. Floats should be displayed in the parking areas southwest of the Administration Building after the parade. These should remain in place until halftime of the Homecoming football game.

4. Vulgarities and questionable subject matter constitute grounds for immediate removal from the parade.

5. All entrants must submit a sketch and dimensions of their float by October 10, 2014, to the Student Government Parade Committee and receive acceptance as an eligible float for judging purposes.

6. Floats will be judged on the basis of originality, design and quality of construction, mechanics, application of Homecoming theme, and in comparison to other float entries.

7. Cash awards will be made to the First, Second and Third Place winners. Prizes are $1,300, $800 and $500 respectively. All float entries are eligible for prize money.

8. In case of inclement weather our float will be located at the following address and telephone number:
