

**SWOSU College of Pharmacy  
Immunization Policy**

**I, the undersigned, have reviewed and clearly understand the following SWOSU College of Pharmacy Immunization Policy. My signature on this agreement is valid for all courses taken from the date of my signature until my graduation from the College of Pharmacy program.**

All records must be kept on file at Student Health Services

**APPE Rotations Requirements and deadlines:**

**TB Screening:**

- All students beginning rotation in the Fall Semester must get a TB skin test, IGRA, or complete a survey in **May**.
- All students beginning rotations in the Spring Semester must get a TB skin test, IGRA, or complete a survey in **November**.
- If you are past due of your annual TB test by even one day you **MUST** have **two** placed and read according to the above guidelines
- If you submit an **IGRA or survey** in place of a TB skin test, you must meet the above the above timelines and guidelines.

**Tetanus:**

- Check your Tetanus date. If your Tetanus will expire before or during rotations you must update it also.
- The due dates are the same as above

**TB Screening and Tetanus deadlines:**

- TB screening and Tetanus records for APPE rotations must be turned in to Student Health no later than the third working day of the month following the May/November deadline

**Influenza Immunization:**

- All students starting rotations in the Spring semester must have a flu vaccine for the current flu season by the last day of November. Students must maintain written documentation of the immunization to provide to sites if requested.
- Students who will be on their second semester of rotations during the Spring semester must obtain a flu vaccine for the current flu season by the last day of November. Students must maintain documentation and provide to sites if requested.

**Influenza Immunization Deadline:**

- Documentation of Influenza Immunization for all APPE rotation students must be provided to SWOSU Student Health by the third working day of December.

**Any student who fails meet the immunization requirements or deadlines set by the Office of Experiential Education will receive a consequence determined by College of Pharmacy Administrative and Experiential Education personnel. The most severe would be a delay of progression in the program by one semester.**
