	continue making them available
	Don't use them. They are distracting
	doodle more
	Evening courses...
	Excellent, no suggestions at this time
	Fix the equipment or make sure the profs know how to use it. It takes a lot of time to call roll when sites get disconnected or can't hear, etc.
	have instructors fax test over early, not right before class starts, my class is in a different building and about a block away from the Itv building & if corey isnt available to bring over test or papers, i either have to wait until class is over...
	Have it where there was less noise from the school surroundings
	Have more classes offered
	have other sites be aware of there background noise
	I appreciate having the Geronimo site available, as it is closer to Lawton than USAO or WOSC.
	I didn't feel comfortable when the cameras were on the SWOSU class, where I was and we could see ourselves. It was a major distraction.
I don't know any other ways	

<b>34. Please add suggestions on how courses by interactive TV can best be used to benefit you. The interactive video is a distraction and generally wastes at least 15-30 minutes of class time as sites are added or dropped or can't hear or ...
	I think that there should be better ways to get materials to the students that are off site. ex, when there were lg packets that I needed I couldn't receive them through email because it was too many pages to print.
	I would not be getting my degree if these classes were not sent here via ITV. I work to many hours to be able to make it to Wford that much. This has allowed me to further my education while still workign to support my family.
	If all the sites would provide wireless internet access. The Mustang site has a computer lab, but we end up using our break to view materials that we need.
	If there were more general education classes offered.
	if they were located at the Western Technology Center in Burns Flat
	It's very explanatory to follow.
	It allows us to be able to see other students from other schools and it allows us to see how they learn and what they have to say about a certain subject.
	It is easier to take ITV classes than drive to campus
	It is fine.
	It saves money on gas.
	it was beneficial
	It was very difficult to take MIS at WOSC in a room that did not have computers available for us during class. We would have to listen and then go to the library to use a computer. I am very hands on and it was very difficult.
	Just fine
	Make every single teacher take mandatory teaching on the equipment they will be using. This will help us be able to learn more because then when they come in to teach they willll know what is going on and be able to work the equipment. With this cl...
	make it available by internet
	Making sure ALL the instructors have had training on how to use the equipment. Every single class I had this semester, every week, there was some problem getting all the sites connected or hearing the sites. It was very frustrating and distracting.
	maybe get a web cam so it could be accessible at home.
	More combination courses or web based
	more combination of web based courses
	More mixed courses that incorpote an online aspect
	Not sure
	Off site muting when not in discussion.
	off sites being aware of their background noise.
	Offer more courses on interactive TV
	One of the problems I have seen in all the interactive courses as been that other sites are dropped and time is taken up while the problem was fixed. There is also a lot of time taken up at the beginning of class checking in with all the sites. If...

TELEVISION THE COURSES AT THE WESTERN TECHNOLOGY CENTER IN BURNS FLAT.	
The monitor in the ITV room at WOSC is extremely small. I would prefer a larger screen.	
The monitors could be moved so I could see the teachers face and the classroom could be bigger. It felt like I was sitting on the next person's lap the whole time.

	Few more night class choices from other universities. Have it published so students can know what is being offered, instead of having to log in to Campus Connect to view individual choices.
	finance classes early in the morning
	From 4-9 PM Monday thur Thursday
	General Education classes in the evening for students have full-time jobs during the day
	Group Counseling in the evening
	Having a class during the daytime would be awesome. Not everyone has a 9-5 job. For those of us who work at night, it makes taking the classes difficult. I was only able to take one class per semester. That is ridiculous.
