Section 6. EPP s Continuous Improvement & Progress on (advanced level) Phase-in Plans and (initial-licensure level) Transition Plans

2024 Annual Accredited : Annual Accredited : Section 6. EPP s Continuous Improvement & Progress on (advanced level) F

6.1. Summarize any data-driven EPP-wide or programmatic modifications, innovations, or changes planned, worked on, or completed in the last academic year.

This is an opportunity to share targeted continuous improvement efforts your EPP is proud of. Focus on one to two major efforts the EPP made and the relationship among data examined, changes, progress with any Transition Plans (initial-licensure level) and/or Phase-in Plans (advanced level), and studying the results of those changes.

The EPP recognizes the significance of continuous improvement and conducts an annual evaluation of the quality assurance system to ensure alignment with state, CAEP, and Specialized Professional Associations standards. Recently, the EPP has prioritized the adherence of all programs to the 2022 CAEP Initial and Advanced Standards. Furthermore, certain Specialized Professional Associations, such as the National Council of Teachers of Mathematics and the American School Counselor Association, have introduced new standards. Consequently, the EPP has had to assess and revise assessments as necessary to meet these new standards in preparation for submitting program reports this Spring. The EPP undergoes an annual review process that involves examining EPP and program objectives, collecting and evaluating data, and interpreting the findings. By analyzing the data and presenting the results to the Teacher Education Council and Advisory Board, the EPP identifies necessary changes to improve candidate performance and success. In addition to modifying assessments to meet the new standards, the EPP has been working on establishing new transition levels for initial and advanced programs and developing a dispositions rubric to address the needs identified through the data. For initial programs, the new transition levels will provide
